

Back Up Alarm

Part No. VL0403

Industrial heavy-duty backup alarm produces a powerful 97dB beeping sound, alerting pedestrians and other vehicles in the area. Alarm is sealed in a durable ABS case. Mounting bracket is zinc coated for corrosion resistance.

Technical Specifications

DC 12V- 110V

97dB at 1.2 meters

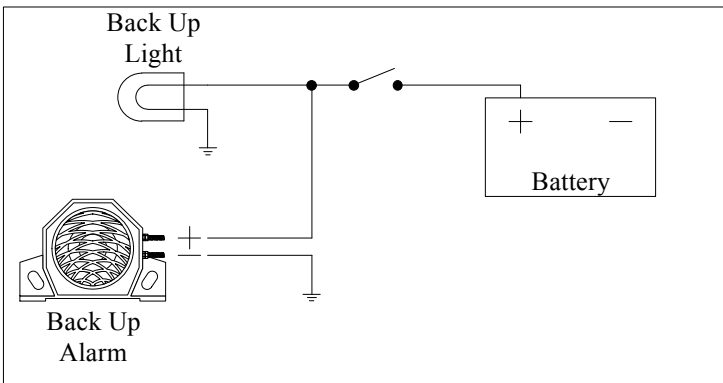

Power 5 Watts

Temperature Range -40F to + 185F

Frequency 1200 Hz

Dimensions 2.8" x 1.7" x 4"

Typical Wiring Diagram

Backup alarms should be installed on the rear of the vehicle in a location that will provide protection from weather, and minimize the possibility of damage in the event of a collision. Alarms should be mounted approximately 4 ft above the ground with the face of the alarm directed toward the rear of the vehicle.
